Dear Martyn,

I am a bit confused. Per February 9th, I thought this was being sent to Carcinogenesis. Are your suggestions for EHP editors alternatives in case Carcinogenesis does not take the manuscript? I feel your initial suggestion of Carcinogenesis is a much better fit as a journal.

Also, the NCEA review process can be long and DC has had multiple outages of electronic services that include our clearance mechanisms. DC offices are closed today due to the latest in a number of snow events. This may take a while to get cleared.

Best wishes in sunnier climes.

Jane Caldwell

I attach the 'final' version of our paper on the Key Characteristics that I plan to submit tomorrow once I hear from Vince.

For reviewers I am suggesting: Curt Harris, Larry Marnett, Trevor Penning, David Ross, Pierluigi Cocco and Larry Robertson. Please add or subtract from this list.

As EHP editors I am suggesting Bruce Fowler, Manolis Koveginas or Tracey Woodruff. Thoughts?

Thanks, Martyn
